

France, Cameroon, Germany, Norway... April 2022

A quick update on the family

Voilà: that's what it looks like at the moment when we all meet together on the same day... WhatsApp makes it possible! And even the cousin from the South of France is with us! 😊

Each one of us could tell you something about what is happening in their life right now: Nathanael could tell you that he just had his first theory lesson for his driving license with his uncle (who is a driving instructor), Betsalel would have a lot to tell you about the last 3 months in YWAM Norway, where he joined the ministry team to work with local youth groups and churches, among other things, and where he is now doing a school of worship. Joshua could tell you that he just had a cool worship night with others at the YMCA house where he is living during his studies. And that he is now in the 6th semester of his bachelor's degree.

As for Samuel and Sabine, we are happy to be able to make a short visit to Samuel's family in the South of France, because it is the Easter holidays and we were able to „escape“ for a short while. We are very grateful for these precious family moments via video and chat.

News from our „Health Centre Koukoum“ in Cameroon

In February, Samuel and two other people from our congregation in Cholet travelled to Cameroon to supervise and give the building work another good „push ahead“. The aim was for the centre to start operating. On arrival, it still looked as you can see on the first two photos, and at the end it was completely painted and fitted with electricity. Again, local workers did an immense job! However, there were some complications and not everything that was planned beforehand could be done. Among other things, there

were problems with well that was supposed to be drilled in February, so it had to be postponed. A partial opening of the centre is still possible, because the building is functional, even if not all equipment could be put in.

As mentioned earlier, there are always obstacles and complications to be overcome, but we will not be deterred from bringing this project to completion and expressing God's love and care in a practical way to the people of this area of Cameroon.

The Word of God encourages us: "... you need patience, so that after you have done the will of God, you may receive what has been promised." (Hebrews 10:36) That „promise“ in our context is a functioning health centre that is a blessing to the people for the glory of God. We are very, very grateful for everyone who has supported this project in prayer and donations for several years now!!! Be blessed!!! Here now some photos of what the centre looked like at the beginning of March:

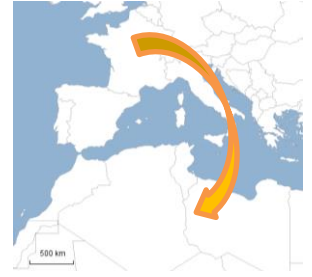

The Church in Cholet, France

Since Easter 2020, we have been praying regularly and intensively for the development of our church in Cholet, first just the two of us (Samuel and Sabine), and later with a small group of faithful and committed church members. God gave us many impressions which were progressively confirmed, and we were able to see quite a number of spiritual breakthroughs. In obedience to the impression that praise and worship are a key, monthly worship evenings have been held since autumn 2021, to which people from other churches also come each time, often telling us afterwards that they were blessed. May the Lord bring a breakthrough in the spiritual realm so that people in this area see HIM and understand the Good News of Salvation in Jesus!

A Bridge between Europe and Africa

Through his yearly trips to Cameroon and via the internet, Samuel maintains many contacts in Cameroon and is often able to give pastoral advice and help in all sorts of situations and crises. In this way, individuals, couples and families are encouraged and pointed to the Lord again and again, and as a family, we have also often been able to help in a very personal and practical way. We are currently looking for a possibility for the currently 17-year-old son of a young widow in Cameroon to come to Europe next year as an au-pair boy. If you have any hints, we are grateful for any information you can give us.

To conclude, we wish you a blessed spring time, with peace and hope in Jesus in this season of crises and fears we are currently experiencing in Europe. By His resurrection, Jesus Christ gives us hope and confidence in all situations. So let us hold on to this. Sending you all our love, gratitude and friendship, united in Christ,

Sabine and Samuel,

with Joshua, Betsalel and Nathanael

A word from Betsalel @ YWAM Ålesund in Norway:

Greetings from Norway!

After 3 months on a YWAM base, in Ålesund, working with different youth groups and churches, I am since 2 weeks, taking part in a 3 months School of Worship.

The goal is to learn more about what worship is and how to lead people into it. There is also practical skill development time, learning an instrument, voice, etc. And also a lot of worship times in community, teaching about different topics regarding worship and a looooooot of fun :)

Worship through art and music is one of my passions so I am excited to see where God will lead me in the next 3 months. Thankyou so much for every prayer. Be blessed!

Betsalel
